Is Your Home **Winter-Ready?**

- [ ] Lower your thermostat when asleep or away (health allowing)
- [ ] Seal gaps around windows and doors
- [ ] Upgrade to a smart thermostat
- [ ] Schedule annual appliance service
- [ ] Reverse your ceiling fan to spin clockwise
- [ ] Set your water heater to 120°F
- [ ] Replace your heating system's air filters
- [ ] Assess your insulation and upgrade as needed
- [ ] Test smoke and carbon monoxide alarms
- [ ] Choose high-efficiency natural gas appliances
- [ ] Ensure vents and returns are open
- [ ] Use thermal curtains and warm bedding
